 Bengaluru, Karnataka

TECHNICAL SKILLS

Programming Languages

JavaScript (ES6), Java, C

Frontend

HTML, CSS, Bootstrap,
React.js, jQuery

Backend

Java, Spring Boot, REST API's,
CRUD, Express.js

Databases

SQL, MySQL

Testing and Quality

SIT, UAT, Regression Testing,
Unit Testing

IDE's

Visual Studio, Eclipse, IntelliJ

Version Control

Git, GitHub, GitLab

Soft Skills

Adaptability, Time Management,
Effective Communication,
Teamwork

EDUCATION

Sri Krishna College of Technology
BE, Computer Science

2019-2023, 81% CGPA

TMHNU Matric Higher Sec School

HSC 2019 - 73%

TMHNU Matric Higher Sec School

SSLC 2017 - 93%

LANGUAGES KNOWN

English: Professional

Tamil: Native

CARRER OBJECTIVE

Software Developer with 2 years of experience in building and supporting web applications using Java, Spring Boot, and React.js, with domain exposure in banking applications.

EXPERIENCE

i-exceed Technologies, Bengaluru (Mar 2024 – Jan 2026)

Bandhan Bank Project Sep 2025 – Jan 2026:

- **CR Development:** Implemented new features and enhancements based on business requirements, ensuring compliance with banking standards.
- **SonarQube:** Resolved code smells and bugs across Bandhan Admin, Onboarding, and Loan applications to improve code quality and maintainability.

OGB (Odisha Grameen Bank) Project Feb 2025 -Sep 2025:

- **Development:** Developed a registration, service & deposit module for the OGB application, enhancing fund transfer efficiency and user experience (JavaScript, jQuery, Java, Spring Boot).
- **Core Banking System:** Integrated the module with the bank's core banking system, ensuring secure and seamless transactions.

BOV (Bank of Valletta) Project Jun 2024 – Jan 2025:

- **SIT and UAT:** Bug fixing for SIT and UAT in JavaScript, jQuery, Java.

i-exceed internship, Bengaluru (Mar 2024 - May 2024)

- **React.js and Express.js:** Learned react.js and express.js by developing basic application and bug resolution.
- **Debugging and Testing:** Learned debugging, testing the application, and implemented test cases for the application.

PROJECTS

Pantry Management System: Developed a full-stack web application using React.js, Express.js, SQL, and Bootstrap for managing pantry items and user requests.

E-Learning: Implemented by using JavaScript, CSS, express.js

ONLINE COURSES

- **React.js** - Great Learning
- **JavaScript Projects** – Great Learning
